

PRODUCT TEARDOWN

MATIKS

Mental math, turned into a live 1v1 e-sport

Live Duels

Real-time 1v1 math battles

Puzzle Modes

Logic, memory & number play

Leaderboards

Global & friend rankings

1

POSITIONING & JOB-TO-BE-DONE

THE WEDGE

Solo brain-training apps train you against your own score.
Matiks makes every session a live match against a human.

PRIMARY USER

Students & quant-role aspirants who want speed practice
that doesn't feel like studying — plus casual “brain gym” users.

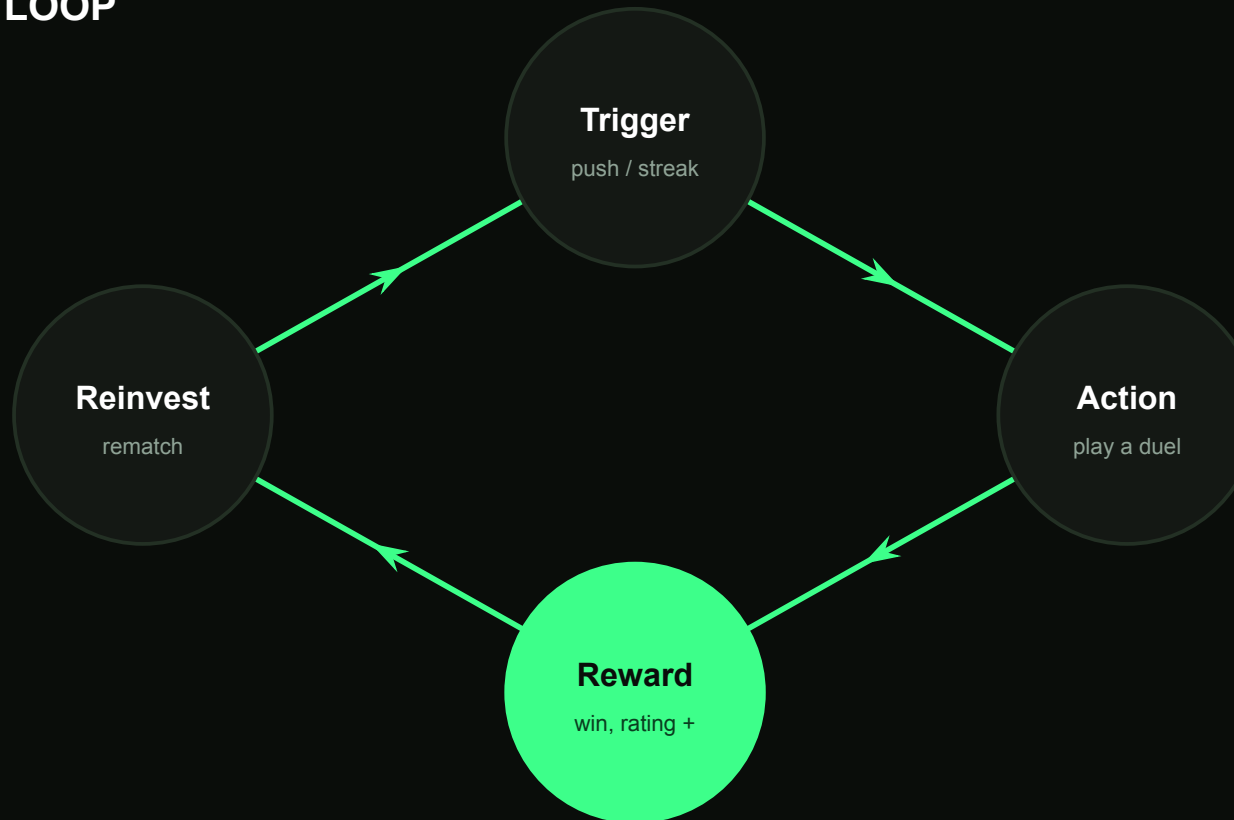

2

ONBOARDING FLOW

3

CORE ENGAGEMENT LOOP

4 STRENGTHS & GAPS

Live duels create real social stakes

One rating across unrelated skills

First duel happens in session one

Real-time play needs peak-hour liquidity

Ownable “brain e-sport” positioning

No repair path after a loss

5 RECOMMENDATIONS

1

Monthly Brain Report

Spotify-wrapped-style recap - shareable

2

Post-loss repair loop

60-sec targeted drill, then rematch CTA

3

Async duels off-peak

Ghost-replay match when no live opponent

6 METRICS TO TRACK

D1/D7/D30 retention

Duel completion rate

Matchmaking wait time

Post-loss return rate

Free → paid conversion

Rating volatility
